dura.roof

acrylic roof paint with waterproofing properties

RESIDENTIAL ROOF COATING & WATERPROOFING

PROJECT LOCATION

Gauteng

SIZE OF PROJECT

200 m²

NATURE OF PROJECT

Tiled roof required painting and with all the rain, a water based paint that offers durable, weather resistance and good adhesion was preferred.

dura.roof is an acrylic roof paint with waterproofing properties. Roof paint is suitable for cementitious, tiled or galvanised well drained roofs and is an economical, tough, non-toxic roof paint.

dura.roof is register for a 5 year quality guarantee (T&C's apply).

Available in a range of standard roof colours with a smooth finish.
